Understanding Connie Crawford’s Approach to Patternmaking

Philosophy and Teaching Style

Connie Crawford’s patternmaking philosophy centers around clarity, simplicity, and practical application. She believes that patternmaking should be an enjoyable process, not an intimidating task reserved for experts. Her teaching emphasizes breaking down complex concepts into manageable steps, using clear diagrams, and

providing hands-on exercises. This approach helps students grasp the fundamentals, develop their skills gradually, and build a strong foundation for designing custom patterns. Key elements of her teaching style include:

1. Step-by-step instructions for each patternmaking stage
2. Use of visual aids and detailed illustrations
3. Encouragement of experimentation and personalization
4. Focus on understanding fit, proportion, and fabric behavior

Core Principles of Connie Crawford's Patternmaking System

Connie Crawford emphasizes a systematic approach that combines traditional techniques with modern innovations. Her patternmaking system typically involves:

1. Mastering basic blocks (slopers) as foundational templates
2. Using dart manipulation and seam adjustments to create design variations
3. Incorporating fit adjustments early in the process
4. Practicing pattern grading for size variations
5. Understanding fabric selection and its impact on pattern design

By focusing on these principles, students learn to develop patterns that are both functional and fashionable, tailored to individual body shapes and design intentions.

Step-by-Step Guide to Connie Crawford Patternmaking Made

Easy

1. Starting with Basic Blocks (Slopers)

The foundation of any patternmaking process begins with creating a basic block, also known as a sloper. This template represents a perfect fit for a specific body measurement and serves as the starting point for all design variations. Steps to create a basic block:

1. Take accurate body measurements, including bust, waist, hip, shoulder width, and back length.
2. Select appropriate paper and drafting tools such as rulers, French curves, and pencils.
3. Draft the basic pattern following standard measurements, ensuring correct grainlines and seam allowances.
4. Fit the sloper on a dress form or a fitting model, then make necessary adjustments for a perfect fit.
5. Mark crucial points and dart placements clearly for future reference.

Tip: Connie advocates creating multiple slopers for different garment types (e.g., bodice, skirt, sleeve) to streamline the design process.

2. Manipulating Darts and Seam Lines

Once the basic sloper is perfected, patternmakers can manipulate darts and seam lines to create various styles. Key techniques include:

1. **Dart Rotation:** Moving darts from one location to another to change the silhouette without altering fit.
2. **Princess Seams:** Dividing darts into vertical seams for fitted, elongated shapes.

3. **Pivoting:** Using tracing paper and pivot points to shift darts and design lines seamlessly.

Practical exercise: Practice dart manipulation by transforming a basic fitted bodice into a design with princess seams or panel details.

3. Adding Design Details and Style Lines

After establishing a well-fitting base, you can add style elements that reflect your design vision. Steps include:

1. Identify the areas where design lines or panels will be added.
2. Draw new seam lines or decorative darts directly onto the pattern or on a new overlay.
3. Ensure that all new lines maintain proper fit and balance with the original pattern.
4. Adjust pattern pieces to incorporate details such as pleats, gathers, or decorative seams.

Tip: Use Connie's method of "pattern drafting overlays" to experiment with style lines without altering the original pattern.

4. Pattern Fitting and Adjustments

Fitting is a critical step in patternmaking, ensuring the final garment conforms perfectly to the body. Fitting process:

1. Make a muslin (test garment) from your pattern to check fit and design lines.
2. Pin or baste the muslin on a dress form or fitting model and observe areas needing adjustment.
3. Mark changes directly on the muslin, such as taking in or letting

out seams, or adjusting darts.
4. Transfer these modifications back onto your paper pattern, smoothing out any irregularities.

Connie's tip: Always work systematically, adjusting one area at a time, and re-test the fit after each change.

5. Pattern Grading and Finalization

Pattern grading involves creating different sizes from the basic pattern. Steps include:

1. Identify grading increments, typically ¼ inch or ½ inch per size.
2. Use grading rulers or digital software to scale pattern pieces proportionally.
3. Check seam allowances and balance at each size to ensure consistency.
4. Make a final pattern set for production or personal use.

Tip: Connie recommends practicing grading on muslin mock-ups before finalizing digital or paper patterns.
